

MEDICAL MISSION HALL OF FAME

AWARDS PRESENTATION
AND RECEPTION

COMMEMORATIVE PROGRAM 2010

Honoring those who serve humanity

MEDICAL MISSION HALL OF FAME

Toledo, Ohio

The Medical Mission Hall of Fame has been created to honor, through an annual public awards ceremony, those individuals and/or organizations that have made significant and substantial contributions to advancing the medical well-being of their brothers and sisters throughout the world.

It is fitting and appropriate that they be recognized for their noble humanitarian efforts. Additionally, it is hoped that these commendatory efforts will serve as an inspiration to others to actively participate in or support medical mission work activities and programs.

There are two types of Medical Mission Hall of Fame Awards: individual and organization awards.

Award recipients are selected by the Medical Mission Hall of Fame Selection Committee based on extensive and deliberate reviews of the endeavors and accomplishments of individuals and organizations in the medical mission field. Awards are announced and presented on an annual basis.

We welcome your voluntary efforts and financial support.

Lawrence V. Conway, PhD
President

Medical Mission Hall of Fame

AWARD RECIPIENTS

The Medical Mission Hall of Fame

- Ira A. Abrahamson Jr., MD**, Emeritus Professor of Clinical Ophthalmology, University of Cincinnati College of Medicine
- Harold Adolph, MD**, Chief of Surgery, SIM Galmi Hospital
- Nathan Barlow, MD** (Posthumous), Director, The Mossy Foot Project
- Mary Breckenridge, RN** (Posthumous), Founder, Frontier Nursing Service, Wendover, Kentucky
- Editha Cañete-Miguel, MD, FPCP**, Founder and Executive Director, Agape Rural Program, Philippines
- Lawrence V. Conway, PhD, FASA**, President, Medical Mission Hall of Fame Foundation
- Bernardo Cuevas, MD**, President, Medical Missions Inc., and Professor of Surgery, Santo Thomas University, Manila, the Philippines
- James G. Diller, MD, FACS**, Chairman, Board of Directors, Diller Foundation and Medical Mission Hall of Fame Foundation
- Paul E. Farmer MD, PhD**, Founding Director, Partners in Health, Boston, Massachusetts
- Glenn W. Geelhoed, MD**, Professor of Surgery, Professor of International Medical Education, Professor of Microbiology and Tropical Medicine, George Washington University Medical Center, Washington D.C.
- Jeffery E. Heck, MD**, Founder and Executive Director, Shoulder to Shoulder
- Richard M. Hodes, MD, FACP**, Medical Director, American Jewish Joint Distribution Center, Addis Ababa, Ethiopia
- Peter Hotez, MD, PhD**, President, Sabin Vaccine Institute, Walter G. Ross Professor and Chair, Department of Microbiology, Immunology and Tropical Medicine, The George Washington University and Sabin Vaccine Institute
- John P. Howe III, MD**, CEO, Project HOPE
- Edna Adan Ismail, PhD**, SRN Director, Edna Adan Hospital, Somalia
- William Larimer Mellon Jr., MD** (Posthumous), and Gwendolyn Grant Mellon (Posthumous), Co-founders of Hospital Albert Schweitzer, Deschepelles, Haiti
- Kathleen Magee, RN, MSW**, Co-founder and President, Operation Smile, Norfolk, Virginia
- William P. Magee Jr., DDS, MD, FACS**, Co-founder and CEO, Operation Smile, Norfolk, Virginia
- Jean William Pape, MD**, Director of Gheskio Centers, Port-au-Prince, Professor of Medicine, Cornell University, New York, New York
- Victor C. Rambo, MD** (Posthumous), Ophthalmologist and missionary to India
- Albert Schweitzer, MD, PhD** (Posthumous), Albert Schweitzer Institute
- Jill Seaman, MD**, International Medical Relief Fund, Upper Nile, Sudan
- Bruce C. Steffes, MD, MBA, FACS, FWACS**, CEO, Pan-African Academy of Christian Surgeons
- Sr. Yvonne Veins, RN, MEd**, Apostle of the Needy, Sister of Charity of Montreal, Grey Nuns, Lexington, Massachusetts

MEDICAL MISSION HALL OF FAME

COMMEMORATIVE PROGRAM 2010

AWARDS PRESENTATION AND RECEPTION

The University of Toledo

Atrium, Center for Creative Education

Health Science Campus

March 27, 2010

8:00 - 10:00 p.m.

MISSION STATEMENT

The Medical Mission Hall of Fame has been created to honor those individuals and/or organizations that have made significant and substantial contributions to advancing the medical well-being of their brothers and sisters throughout our world.

The Medical Mission Hall of Fame Congratulates

THE 2010 INDUCTEES AND AWARD RECIPIENTS

SPECIAL APPRECIATION

The foundations wish to express our special thanks and deep appreciation for the tremendous efforts of the UT Alumni Association staff in support of the Medical Mission Hall of Fame. Our special thanks to Daniel J. Saevig, associate vice president of Alumni Relations, for his extraordinary work on behalf of our foundations. The Medical Mission Hall of Fame is now an official affiliate of the College of Medicine of The University of Toledo. Special thanks, also, to Don Reiber from the Department of Communications for his selfless support of this program.

Students for Medical Mission Symposium Program

Saturday, March 27, 2010

8 a.m. - 3:30 p.m.

**Room 110, Health Education Building
The University of Toledo, Health Science Campus**

The Students for Medical Missions, an organization affiliated with the College of Medicine of The University of Toledo, hosted a Medical Mission Symposium on the Health Science Campus of The University of Toledo. Program presenters included, among other honorees, the recipients of the class of 2010 Medical Mission Hall of Fame. Each of the speakers had an opportunity to discuss his or her medical missionary efforts and contributions to the underserved of the world.

MEMORIALS*

Thomas R. Ball
Henry M. Boston
Richard Boyer
Brian K. Bradford
Catherine Ann Conway
Gilbert and Ruth Cook
Ray Eberts
Celia Findlay
Hugo M. Gregory
John Hayes
Barbara Herring
Theodore F. Horst
Dorothy Hussain
Ann Lacksonen
Ann Minwegen

Samuel D. Parsons
William Prebe
Joseph Provenzano
Sr. Yvonne Viens

*Memorials have been created to honor in perpetuity those men and women who have made significant and substantial contribution of their time and talents to improving the lives of their sons and daughters and fellow humans in the world.

Inductees of the Medical Mission Hall of Fame have been specially honored by The Board of Trustees of The University of Toledo. Each inductee has been designated as a "Distinguished Global Faculty Member of The University of Toledo Health Science Campus."

2010 Medical Mission Hall of Fame Inductee DAME AILEEN COLEMAN, RN, SCM, BSc, MA, AM

Annoor Sanatorium for Chest Diseases - Mafrag, Jordan

Dame Aileen Coleman

Since coming to Jordan as a young Australian missionary nurse in 1956, Aileen Coleman has worked tirelessly to bring healing and the love of Christ to the people. The nomadic Bedouin tribes affectionately call her "A'Raiisa," meaning leader, or "The Angel of the Desert," though she calls herself the Desert Rat!

Aileen was born in Bundaberg, Australia, the youngest of seven children. Her relationship with Christ began when she attended a tent revival meeting in college. That surprise encounter with the Lord changed the course of Aileen's life by directing her into medicine. In 1951, she graduated from Queensland University with a Bachelor of Sciences degree in Nursing. She went on to obtain a Masters degree in Nursing Education & Administration.

After her nursing education, Aileen attended Bible College in Victoria, Australia. It was there she heard the call to become a missionary. In 1956, she took up a post as a nurse and administrator at Baraka Hospital near Bethlehem, then a part of Jordan. These experiences affected her deeply and confirmed her path as a missionary to the Jordanian people. While stationed at Baraka, she pursued an Honours Bachelor Degree in Classical Arabic from a London University, and has since become completely fluent.

Aileen's more than 40 years of leadership and service at the Annoor Sanatorium in Mafrag, where she oversees a 50-bed inpatient hospital and clinic treating chronic chest diseases such as tuberculosis and other chronic diseases such as diabetes and asthma, have endeared her to the people of her adopted country. The Bedouin have made her an official blood brother, and in 1989, Queen Noor al Hussein presented her with the Queen's Medal in honor of Aileen's ongoing medical services to the Kingdom of Jordan. In 2000, King Abdullah II gave Aileen the King Hussein Medal of Honor for her "service of mercy and healing to the citizens of Jordan."

Aileen and the sanatorium enjoy a close relationship with the royal family and have an unprecedented opportunity to reach out to the Jordanian people in the name of Jesus. Aileen has also been honored by her native Australia. In 1990, she was made a Member of the Order of Australia by Her Majesty Queen Elizabeth II.

Despite her many honors and much public praise, Aileen is a humble woman whose primary satisfaction comes from the impact her work has on her Bedouin brothers and sisters. By God's grace, the Annoor Sanatorium continues to seek out the lost sheep and to minister to the Bedouin people with physical healing and real love.

2010 Medical Mission Hall of Fame Inductee

DIANE C. DOWNING, RN, BS, MPH

Primary Care Provider and Community Health Nurse, Congo

Diane C. Downing

It was sixth or seventh grade and Diane Downing's future had already been determined. Exposed to missionary work by professional parents who provided financial support for church and school missions, the mid-Michigan native knew she wanted to become a nurse to help people. And after seeing pictures from the other side of the world, she longed for the opportunity to go where the need was greatest.

Diane made her first trip overseas following the completion of a Bachelor's Degree in Nursing from Wheaton College. Having been accepted into a missionary program that would see her placed in the Congo, she went to Switzerland to study French. From there it was on to the Prince Leopold Institute of Tropical Medicine in Antwerp, Belgium, where she earned a diploma in tropical medicine for nurses.

In 1971, Diane began her missionary work in the Congo. With only short breaks in her assignments, she spent nearly 20 years working as a primary care provider and community health nurse. At her first stop, Oicha, in the Inturi Forest, she joined a staff that served 1,200 outpatients per day. At her final destination, Assa, Diane was the sole medical professional within a 100-mile radius.

Diane arrived in Assa to find that 500 children had recently died from a measles epidemic. One of her first projects was giving measles immunizations in the villages. In the next ten years, there was only one death from the disease. She was so well known that some would travel 100 miles on foot for her assistance.

While serving as a primary care provider at most of her stops, Diane examined, diagnosed and treated patients. She also taught hygiene practices, well-child clinics and trained clinical assistants.

At the forefront of health promotion and disease prevention, Diane is renowned for her expertise in the treatment of endemic goiters and neonatal hypothyroidism (cretinism).

Now based in Gaithersburg, MD, Diane teaches at Montgomery College where she is an instructor for certified nursing assistants.

Diane has two daughters who are nurses, Dawn Ryckman of Rochester, NY, and Shelly Downing of Boston, MA. Dawn and Shelly have performed missionary work in locales that include Haiti, Jamaica and Chad. Diane's son, Scott, who was born in Congo, is a missionary school builder based in Chad.

Kathleen Magee, M.Ed, MSW, Co-founder and President, Operation Smile, Norfolk, Virginia

2010 Medical Mission Hall of Fame Inductee

ROBERT L. FOSTER, MD

Hospital Founder, Surgeon and Medical Director, Zambia and Angola

Robert L. Foster

In the forward to the book that documents Dr. Bob Foster's career, *Sword and Scalpel: A Surgeon's Story of Faith and Courage in Africa*, Franklin Graham, president of Samaritan's Purse and World Medical Mission and son of famed evangelist Billy Graham, writes: "I believe Bob is the number one missionary statesman in the evangelical world today and the man God has used in a mighty way to open up new frontiers for the Gospel in some of the roughest areas of Africa."

In all, the Greensboro, NC based Dr. Foster devoted his career – some 60 years of medicine and ministry – to the people of Zambia and war-torn Angola, founding three hospitals in remote areas and serving as a surgeon and medical director.

Dr. Foster has been described as a modern Christian hero, serving in primitive conditions and helping those in need despite suffering some of the worst conditions possible, including a civil war that saw thousands flee Angola for their lives. In 1988, World Vision International named Dr. Foster as its Missionary Statesman of the Year.

A graduate of the University of Toronto's College of Medicine, Dr. Foster completed his medical residency at Vanderbilt University in Nashville in 1949 and immediately went to Zambia where he founded and served for 12 years as medical director of Mukinge Hospital. While in Mukinge, he also founded the school of nursing.

In 1962, he founded and served as medical director at Luampa Hospital in Zambia, leaving in 1967 to serve as interim director of Africa Evangelical Fellowship.

In 1970, Dr. Foster became medical director of Cavango and Kalukembe hospitals in Angola. He remained in that role in 1981 when he became international director of Africa Evangelical Fellowship and medical coordinator for mission medical work in Zambia, Angola, South Africa and Zimbabwe. Since 1990, he has performed short-term medical work at Jamba, Lubango and Rio da Huila clinics in Angola.

From 1990 to 2008, Dr. Foster served as the United States representative to AEF-SIM.

Concludes Franklin Graham in *Sword and Scalpel*: "Bob Foster has inspired and challenged me, not only in the ministry with which I'm involved, but also in my personal spiritual journey. When I get to the end of life's road, I pray that God will have used me even a fraction of the way He has used Bob Foster."

2010 Lawrence V. Conway Distinguished Service Award

JEFFREY P. GOLD, MD

*Provost and Executive Vice President for Health Affairs,
Dean of the College of Medicine*

Jeffrey P. Gold

As the Provost and Executive Vice President of the Health Science Campus of The University of Toledo, Dr. Gold coordinates the leadership of the colleges of Medicine, Nursing, Pharmacy, Health Science and Human Service, and Graduate Medical Study. In addition, the clinical enterprise of hospitals and ambulatory care sites, the research programs of the colleges, and development/philanthropy activities come together under Dr. Gold's leadership, as does the entire health care delivery system of hospitals and clinics.

As Dean of the College of Medicine, Dr. Gold is responsible for the cultivation and recruitment of faculty, development and implementation of its curriculum and ensuring the highest level of education and fulfillment possible for its students, residents and faculty. Dr. Gold also works closely with the hospital's medical director and senior

administration to ensure that the visions and initiatives of The University of Toledo Medical Center hospitals and clinics maintain a close alignment.

Dr. Gold came to The Medical University of Ohio from the Albert Einstein College of Medicine in New York. He received his BSE in 1974 from the Cornell University College of Engineering and in 1978 received his medical degree from the Weill Cornell College of Medicine. He served his general surgery residency at the New York Hospital, his cardiothoracic residency at the Brigham & Women's Hospital, and had additional training as pediatrics cardiac surgery chief resident at the Children's Hospital of Boston. Dr. Gold is a board certified thoracic surgeon and specializes in adult and pediatric cardiac surgery.

Dr. Gold serves on over 50 professional committees and over 100 national organizations, volunteer boards, government/public health councils and industry. He was recently elected to the American Medical Association's Council on Medical Education and the Liaison Committee on Medical Education and has served as president of the Thoracic Surgery Directors Association, a national organization devoted to improving the education of resident physicians. Dr. Gold has authored over 200 peer-reviewed articles, 250 national presentations, 40 books and chapters and more than 60 invited professorships.

Dr. Gold looks forward to continuing a vital role in helping The University of Toledo be a nationally recognized leader in health care education, delivery and research and to significantly elevate its standing among other health science colleges and academic health centers in the country.
